LIGHTING SYSTEM FOR YOUR CABINET - CELUX

CELUX illumination catalogue

"Innovation of LED Strip "

The solder free LED Connection Kit addresses the existing challenges in LED strip installation and replacement.
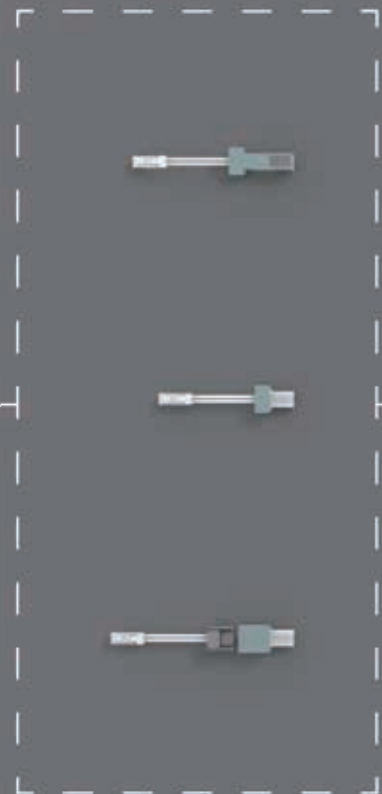

It has emerged as an ideal solution for experts due to its convenient and straightforward assembly process. With the seamless copper LED strip, resizing the product is achieved without the need for soldering or complex assembly, conserving both time and effort and streamlining LED installation and replacement.

1. The kit comes pre-assembled, including the profile, LED, and cover.

2. It can be trimmed to any preferred length without concerning about specific cutting locations.

3. The connection is established via a connector, eliminating the necessity for soldering.

4. The strip is evenly lit within the profile from start to finish, with no light loss at the extremities.

Supplying

Drivers in 15W; 20W; 30W; 60W

Strip Light System - SLS01
Recessed solder-free strip profile light system

Power supply: 12V

Wattage: 7.5W/M

IP rating: IP20

150 PCS 2025 LED/M

Colour appearance: 3000K/4000K/6500K

Lumimous flux: 153LM/M

Lumimous efficiency: 20.5LM/W

Colour rendering index: ≥ 90

Recessed mounted with bracket

Order information

LED strip light system
3000mm length - Pre-install LED Strip & Alu. Profile & Diffuser

CCT	Iron grey	Anthracite grey
3000	SLS013030G	SLS013030A
4000	SLS014030G	SLS014030A
6500	SLS016530G	SLS016530A
